*Title:* Waterfowl Harvest Surveys  
 Amendment

*OMB Approval Number:* 1018–0015

*Abstract:* Under the Migratory Bird Treaty Act, the Secretary of the Interior has responsibility for setting appropriate regulations for the hunting of migratory birds. Information required for effectively governing harvests of migratory birds includes not only knowledge of the harvest's magnitude but also information of the species, age, and sex composition within that harvest, including the geographical and chronological distribution of these components. The information collected is used by both Federal and State authorities to monitor the effects of various hunting regulations on the harvest of individual migratory bird species. This amendment to the currently approved Waterfowl Harvest Survey includes a phased expansion to include all migratory bird species and to solve non-response problems
